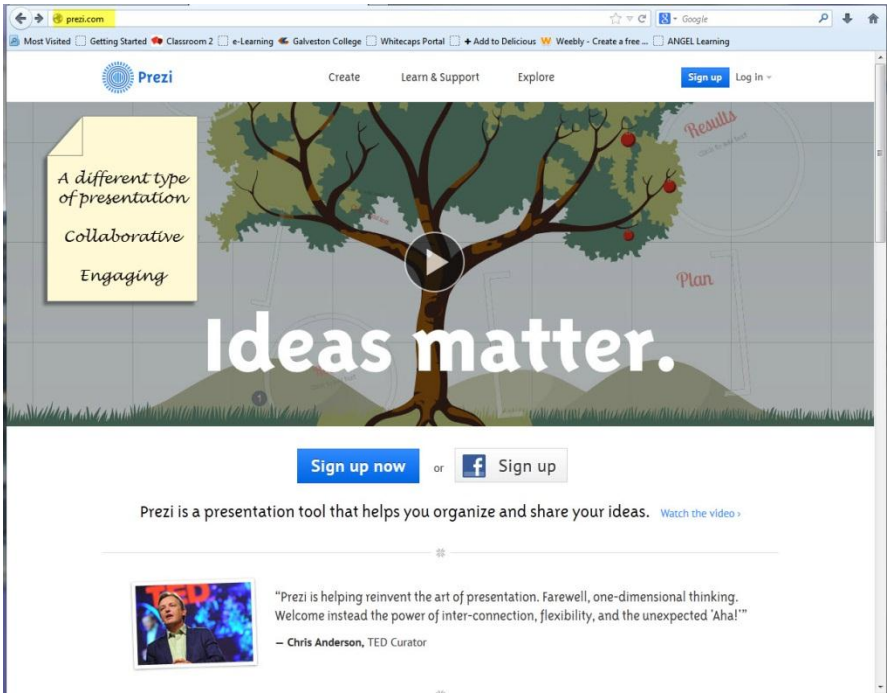
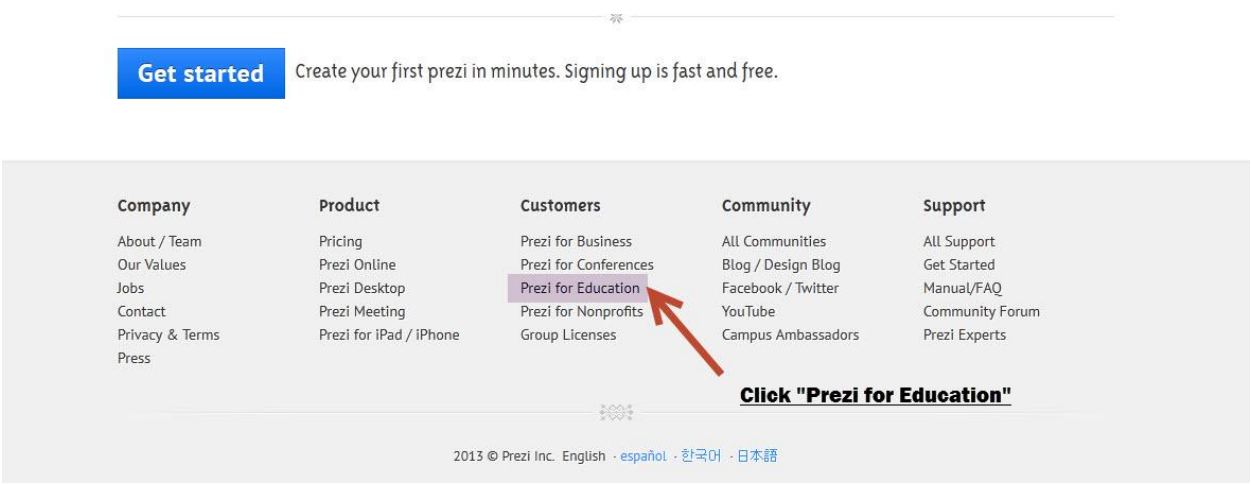
1. Go to www.prezi.com

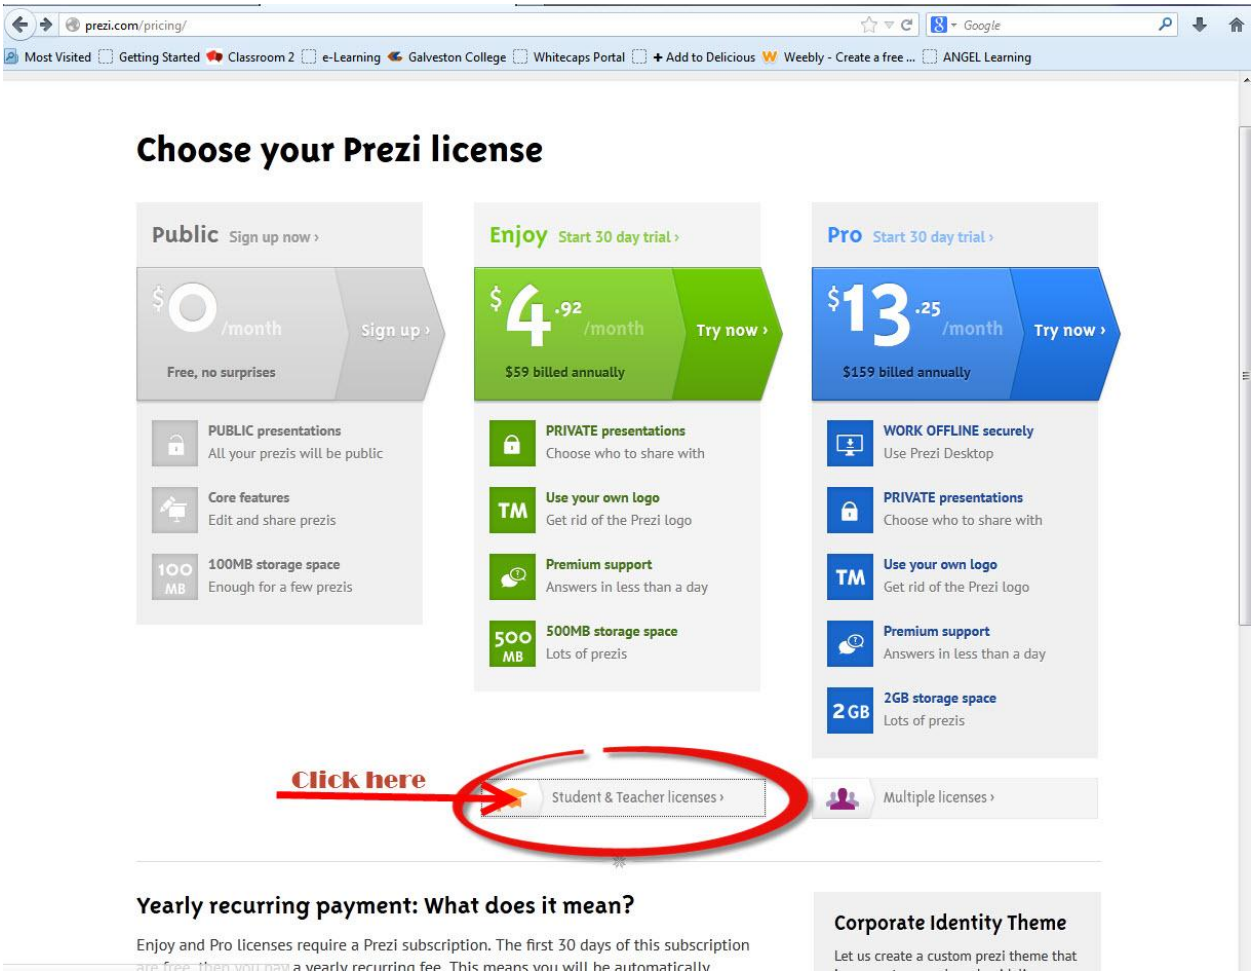


2. Scroll down to the bottom. Click "Prezi for Education"

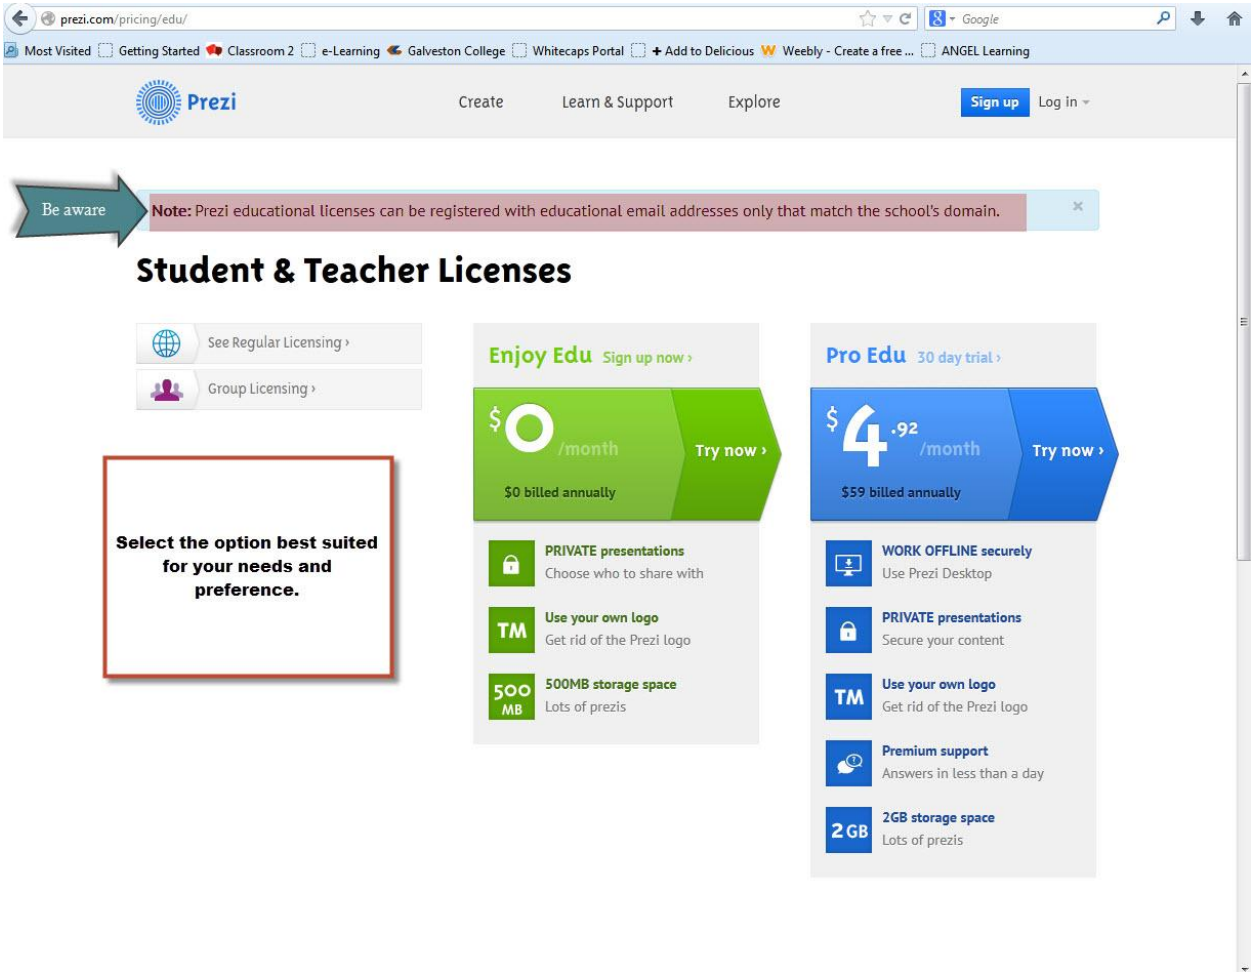


3. Scroll down again. Click "Get Started" for your free account.

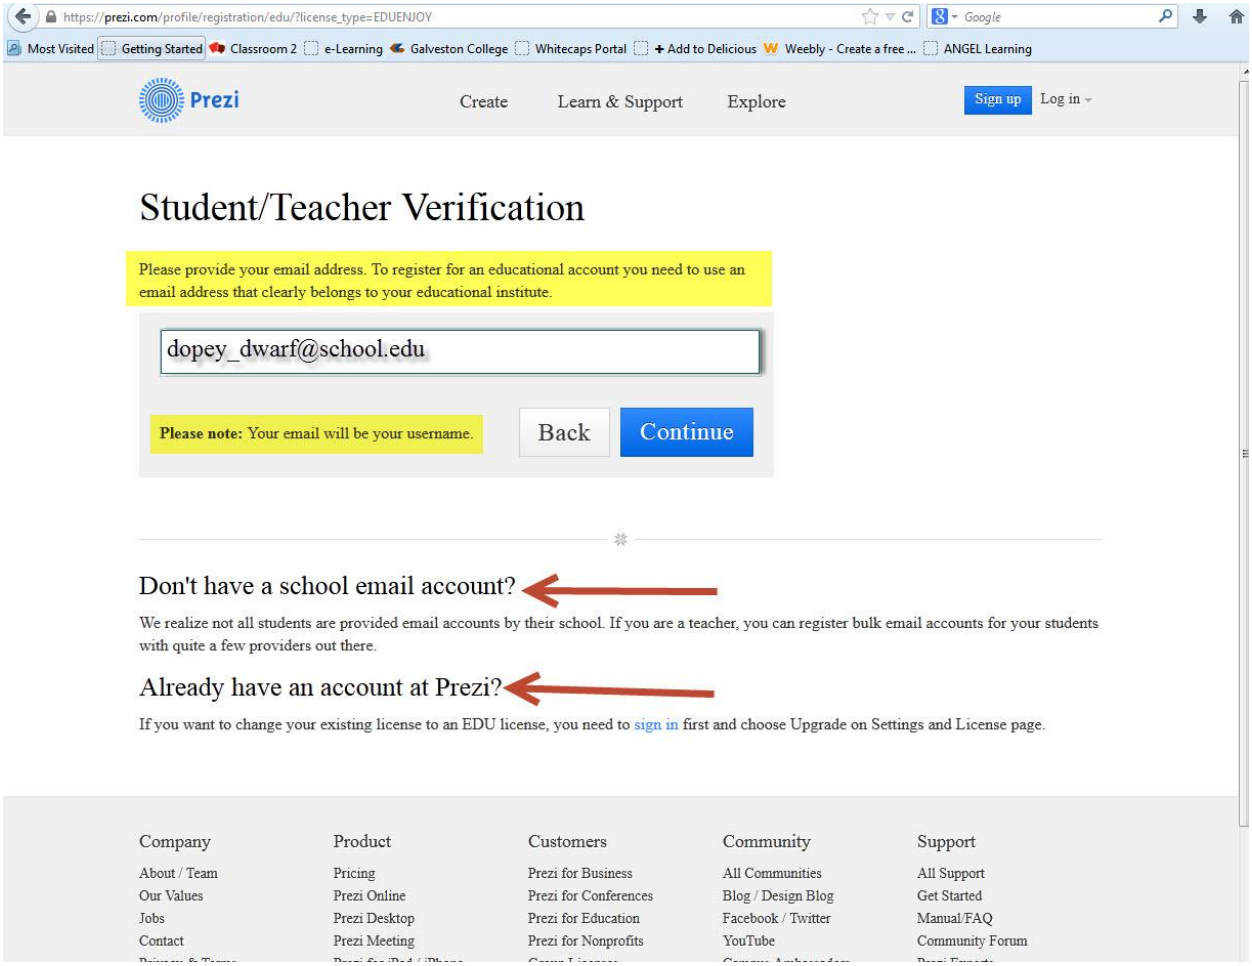
4. About midway down, click “Student & Teacher licenses”.



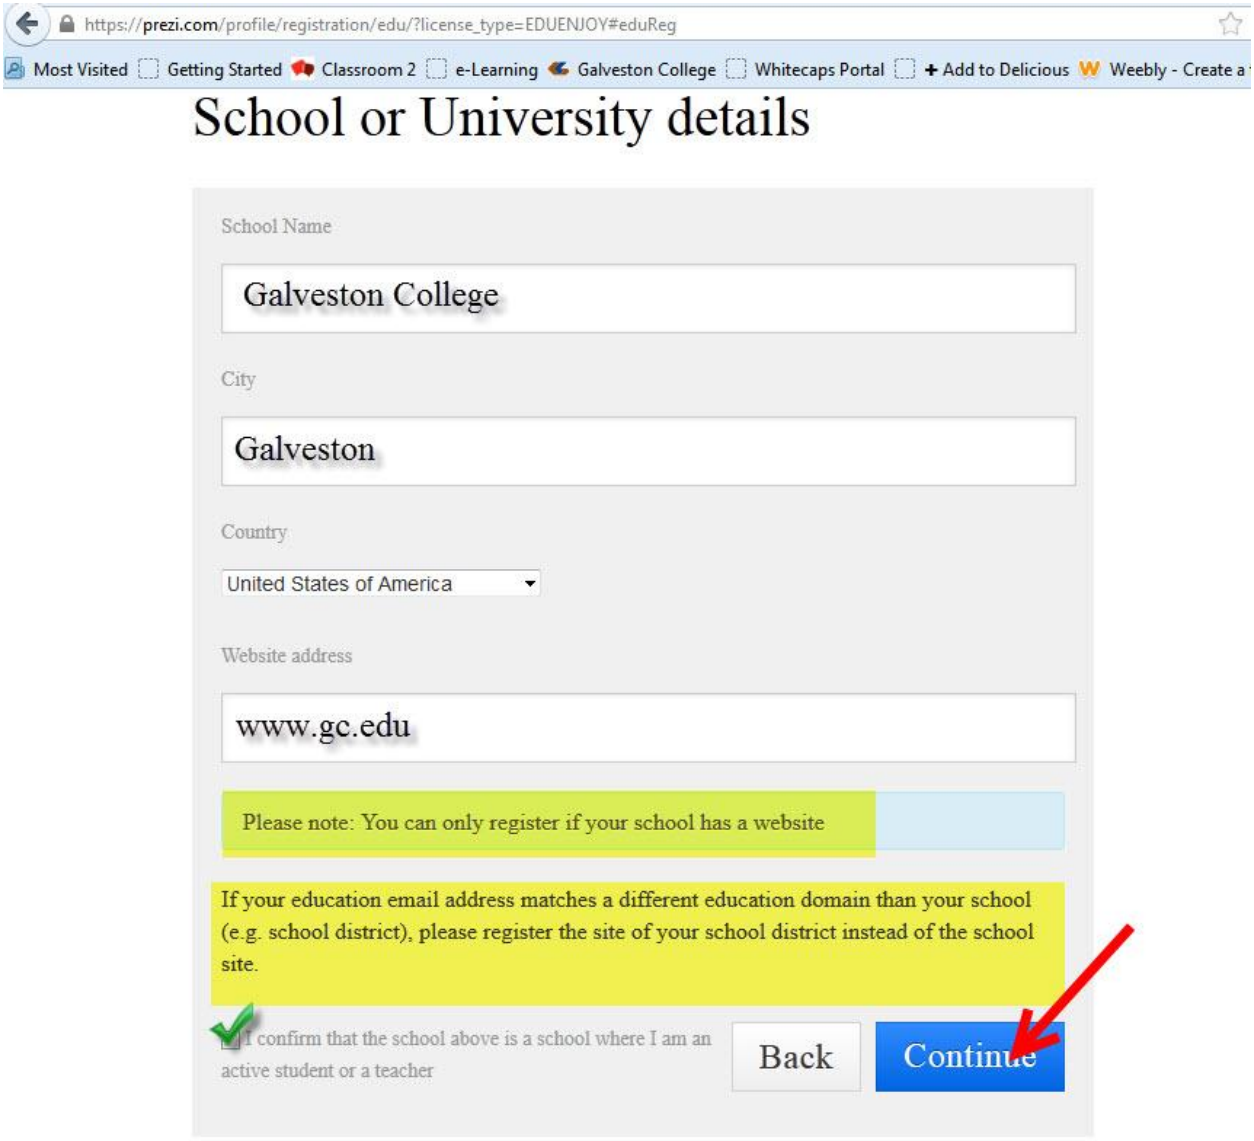
5. Select the payment plan you want. (I like free, personally.)



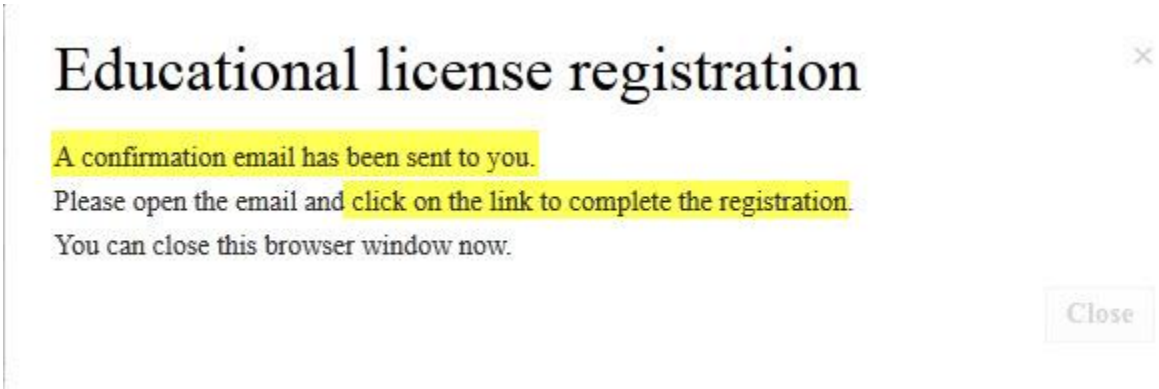
6. **You have to use a school email to register for the free education account. If you already have an account, but want to change it to education, just log in and choose upgrade on the settings and license page.**



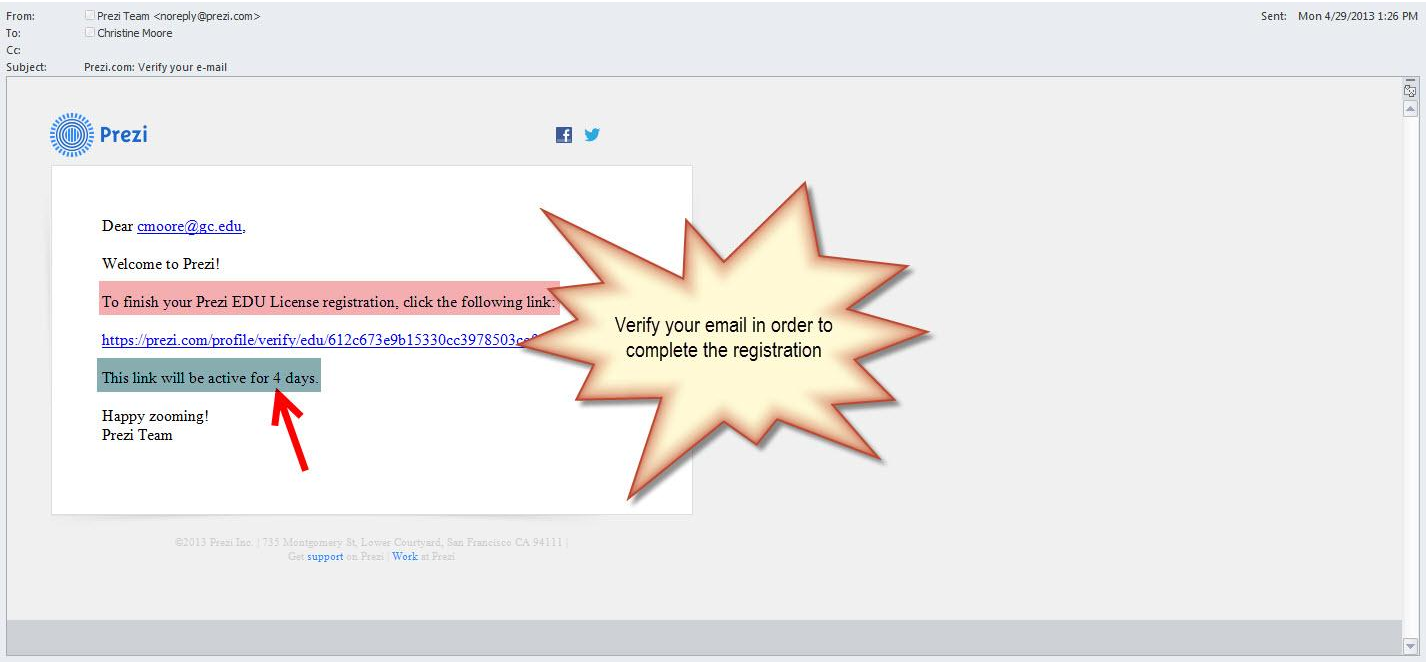
7. Fill out the information.



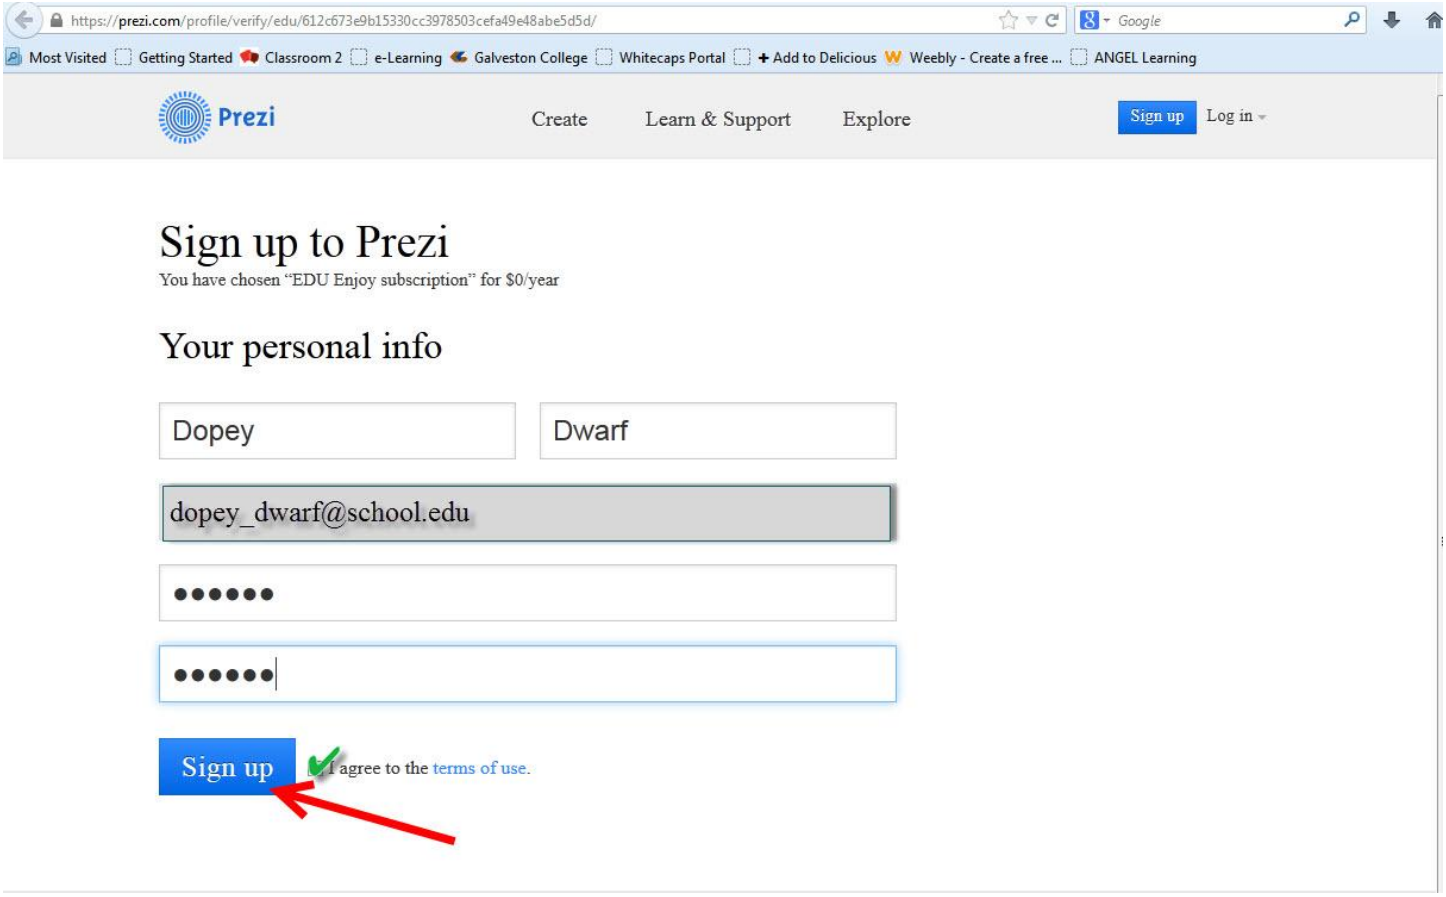
8. You will get the following message. The email will come very quickly.



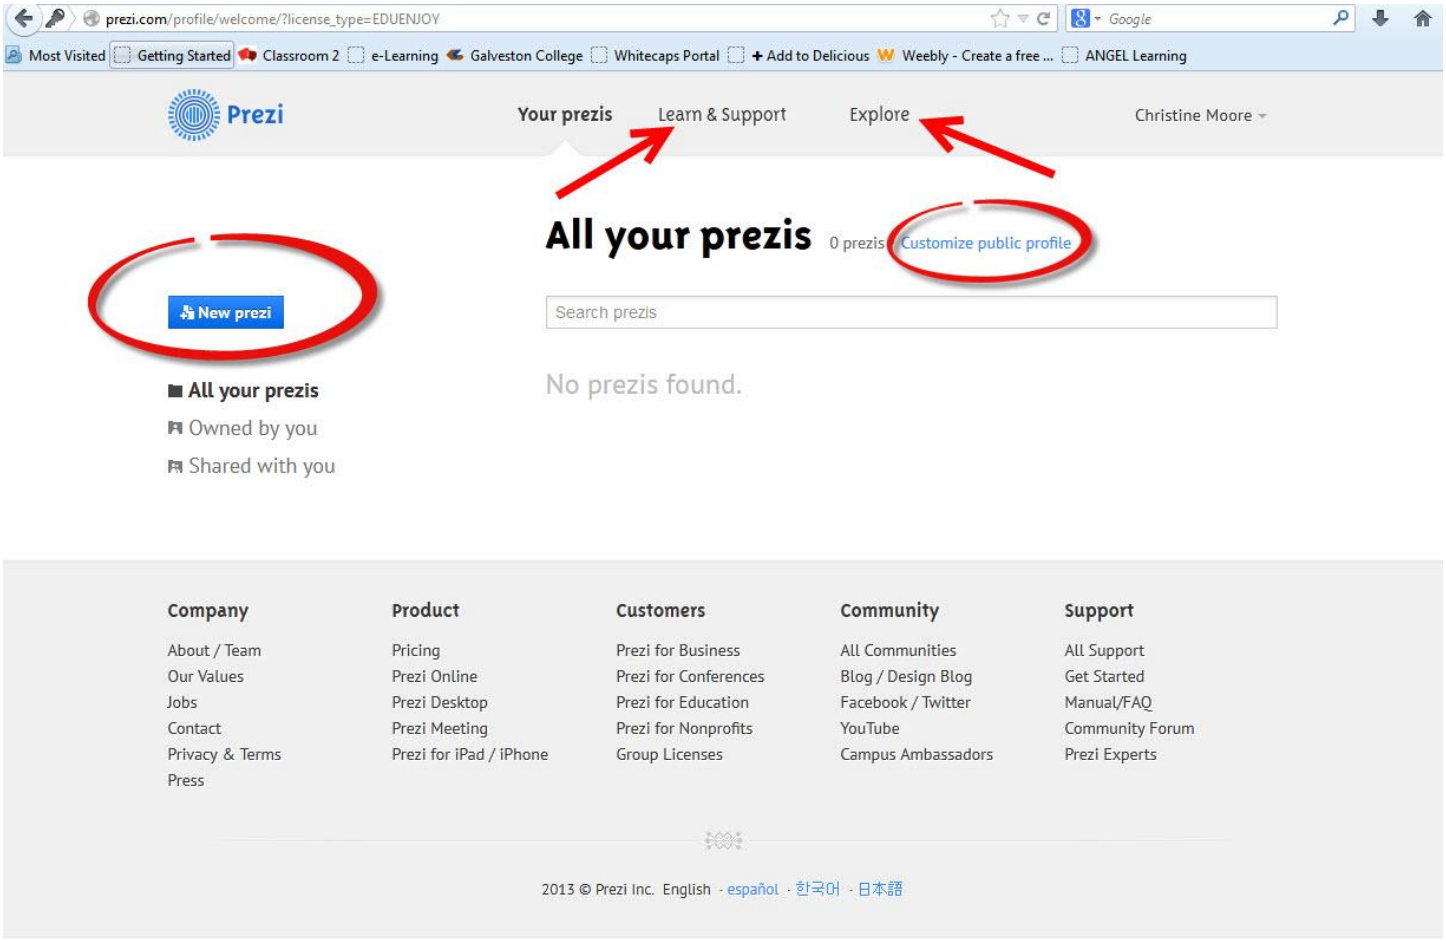
9. Click the link found in the email from Prezi to verify your account and complete the registration.



10. Fill out another box.



11. You are ready to begin creating Prezis!



12. You will get another email with helpful hints.

Welcome to Prezi!

Congratulations on taking the first step to stop boring presentations!
Click below to create a new prezi right away.

Welcome with help will come via email

Create a new prezi

Three easy ways to get started

1. Start from a template

Choose from over 50 beautiful templates, add your content, and start presenting to bring your ideas to life in just minutes.

Select a template from the template library ›

2. Import your old slides from a PowerPoint file

Got a PowerPoint file you'd like to bring into Prezi? Select **PowerPoint** from the top menu, choose a beautiful automatic layout, and start presenting in minutes.

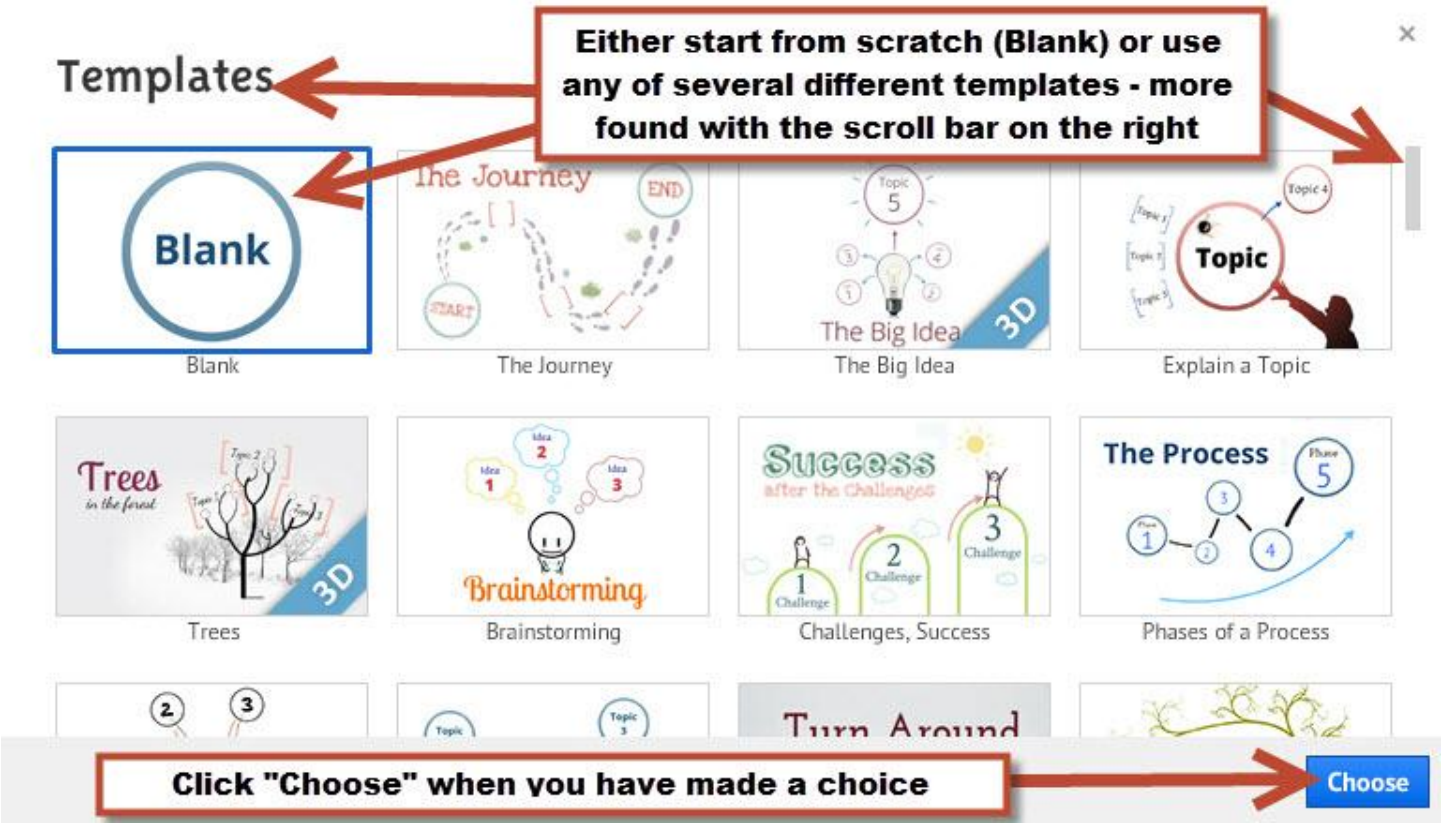
Import your slides ›

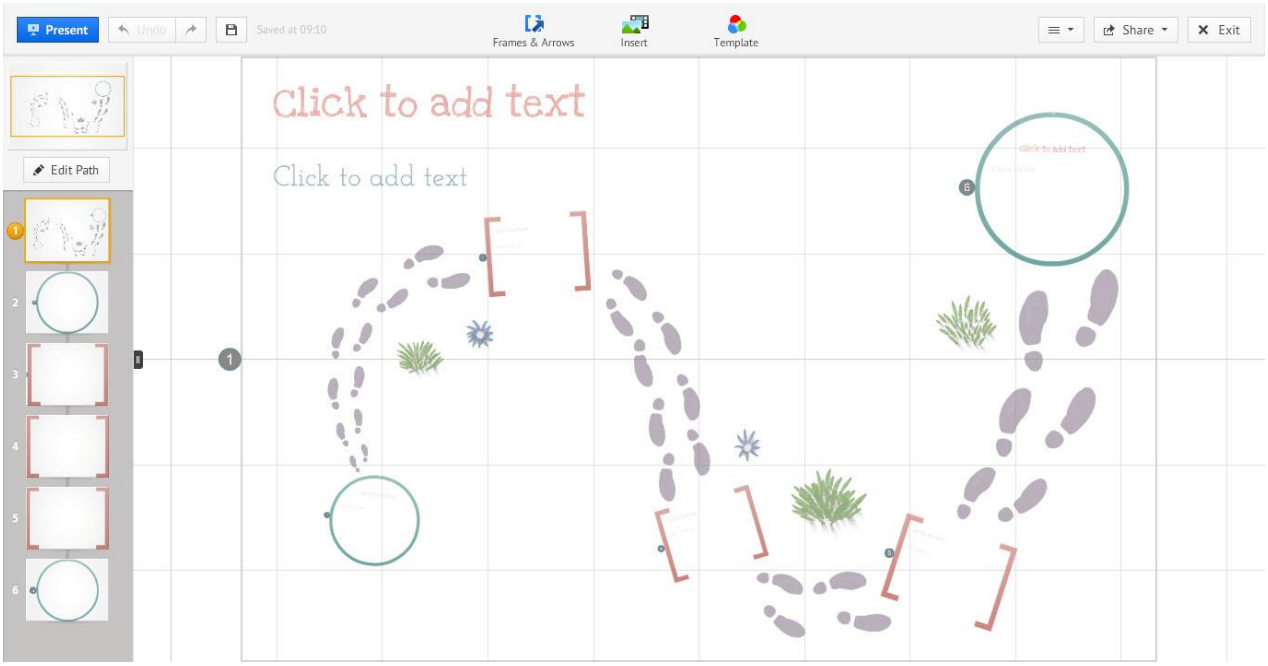
3. Start from scratch

Want full control over your ideas? Start from a blank canvas to break outside the slide.

Create a prezi with a blank canvas ›

13. To get the hang of things, play around with the templates to start building a Prezi.





14. Simply select your template, and then you will click to add text, images, videos, etc.
