Starboard Stylus Pen

The stylus pen has one pen tip button, and two side buttons. Mouse actions can be assigned to these three buttons. The default button settings are summarized in the following table.

Button	User action	Corresponding mouse action (Windows)	Corresponding mouse action (Mac)
Pen tip	Press the pen tip against the display.	Mouse left-click	Primary mouse button click
Side Button No. 0	Press the button with the pen tip slightly removed from the screen (5 mm or less).	Mouse left double-click	Primary mouse button double click
Side Button No. 1	Same as above.	Mouse right-click	Secondary button click
